Experience

Frontend Developer Intern   **Dec 2024 - FEB 2025**
FBT Adventures Travels LLC, Noida, Uttar Pradesh

- Developed FBTadventures.com website using React.js and Tailwind CSS, focusing on responsive design and seamless user experience.
- Built the ROTW website for Russia using Next.js and TypeScript, implementing localization features and optimized performance for global accessibility.

Projects

Event Scraper | Nextjs, MongoDB, Cheerio, Cron

- Built a Next.js event listing system with automated web scraping, MongoDB storage, and 24-hour data updates.
- Designed a responsive UI with Tailwind CSS, implemented secure API handling with TypeScript, and added email verification using OTP.

TaskNest | Node, LocalStorage, React, Tailwind

- Developed TaskNest, a comprehensive task management system featuring complete task lifecycle management, state tracking, and activity logging.
- Integrated state-based filtering and an overview dashboard to streamline task organization and enhance user monitoring.

Food Delivery | Node, LocalStorage, React, Tailwind

- Developed a food delivery app with seamless add-to-cart and checkout functionality for a smooth ordering experience.
- Implemented an intuitive UI and optimized performance, ensuring efficient food selection and secure transactions.

Education

IIMT College, Aligarh, Utter Pradesh   **August 2022 - May 2025**
Bachelor of Computer Application CGPA: 8.8/10

Rajpal Singh Inter College   **July 2021 - May 2022**
Intermediate - 60%

Achievements

- Completed a Full-Stack Development Course from Apna College, gaining hands-on experience in MERN stack, backend APIs, authentication, and database management.
- Completed an internship at FBT Adventures, gaining hands-on experience in React.js, Tailwind CSS, and Next.js while working on real-world projects
